Linguistics Examination

1. (50 points) Describe and illustrate in some detail some major differences between the grammatical system of English and that of Chinese which cause difficulties for students in Taiwan acquiring English. Use any linguistic concepts necessary for describing these differences.
2. (50 points) Define the notions listed in (a-d) below from second language acquisition (SLA) research and clearly note how they are similar to or different from each other. Illustrate each notion with examples from Taiwan learners acquiring English:
 - a. interlanguage
 - b. transfer (negative and positive)
 - c. overgeneralization
 - d. interference
